 My Portfolio

PROFILE

Aspiring AI/ML Engineer with hands-on experience in machine learning, data analytics, and AI application development. Completed a Data Science & Analytics internship focused on predictive modeling, EDA, and visualization. Passionate about building practical AI solutions using Python, Scikit-learn, and Streamlit.

INTERNSHIP

Aenexz Tech, Data Science & Data Analytics 01/2026 – 04/2026 | Bangalore

- Performed data preprocessing, exploratory data analysis (EDA), and predictive modeling using Python.
- Applied machine learning techniques to structured datasets to extract actionable insights.
- Developed interactive dashboards to visualize data trends and model outputs.
- Collaborated on analytics workflows involving data cleaning, feature engineering, and model evaluation.

Internship Project  , *Titanic Survival Analysis*

- Conducted exploratory data analysis (EDA) and data preprocessing on the Titanic dataset to identify factors influencing passenger survival.
- Implemented feature engineering techniques, including missing value imputation and categorical variable encoding.
- Developed and evaluated classification models using Logistic Regression, Random Forest, and Support Vector Machine (SVM).
- Assessed model performance using Accuracy, Precision, Recall, F1-Score, and ROC-AUC metrics.
- Technologies used:** Python, Machine Learning, Data Analysis, Scikit-learn, Pandas, NumPy.

PROJECTS

Intelligent Voice and Audio Enhancement [SonicAI]  , *Artificial Intelligence & Machine Learning (AI/ML)*

- Objective :**Built an AI-based system for enhancing speech quality using ML and DSP techniques.
- Technologies used:** Python, Machine Learning, Audio Processing.

Resume Screening & Matching Application  , *Artificial Intelligence & Machine Learning (AI/ML)*

- Objective:** Developed a Streamlit-based platform to extract, preprocess, and match resumes with job descriptions using NLP techniques. Enhanced recruitment efficiency with keyword gap analysis and visual insights.
- Technologies used:** Python, NLP, Machine Learning, Streamlit.

MarketPulse Analytics  , *Machine Learning / Data Analytics*

Objective: Analyzed AI job market trends and BMW sales data to identify hiring patterns and market insights through exploratory data analysis.

Technologies used: Python, Data Analysis, Data Visualization.

SKILLS

Programming : Python, Java, SQL	Databases : MySQL	Data Science : Data Analysis, Exploratory Data Analysis (EDA), Data Visualization.	Machine Learning : Machine Learning, Deep Learning, Predictive Modeling, Model Evaluation.
Web Development : Streamlit, HTML, CSS.	Tools & Others: Streamlit, Git, GitHub		

EDUCATION

B. Tech, Parul University 2022 – 2026 | Vadodara, Gujarat
Computer Science and Engineering
CGPA - **7.02**

Intermediate, Sri Chaitanya 2020 – 2022 | Vijaywada, A.P
MPC - **91.3%**

CERTIFICATES

Java  OneRoadMap CERT-504099IF	Python  OneRoadMap CERT-51B202E4	SQL  OneRoadMap CERT-255DOASO	AI Engineer  OneRoadMap CERT-BA0D1306
Data Analyst  OneRoadMap CERT-0ECF6B3C
